Hello everyone,

Just wanted to reach out and give an update before your next meeting. As of right now, we are still waiting for the geotechnical report for the soil sampling performed in December. Once we receive this, we can begin the design process.

As for funding, everything is still moving forward. We are awaiting final approval on the STWSIA grant, hopefully this and the Geotech report will come within the next month. Outside of that, there is not really much new development on this project.

As always, I will be sure to keep you in the loop if I hear anything on funding or the design.

Thank you,

Evan McMillan
